REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach or suggest a first modular board having a first worksurface and a first base, legs connected to the first base and elevating the first base from a support surface, a tongue connected to an edge of the first base, alignment protrusions connected to and extending from the tongue, the alignment protrusions being spaced apart, a second modular board having a second worksurface and a second base, legs connected to the second base and elevating the second base from a support surface, a groove along an edge of the second base, the groove constructed to receive the tongue, alignment holes in the groove, the holes constructed to receive the alignment protrusions, when the tongue is aligned in the groove, the first worksurface and the second worksurface cooperate to form a unified and elevated worksurface. The prior art of record only shows horizontal surfaces including a tongue, but not including also alignment members extending from the tongue as claimed. There is no motivation to provide both structures.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
